

LAND AHOY – CUTTING ACROSS THE OCEAN IN RECORD TIME.

With Gondrand at your side, you can share in benefits of a sea freight partner which, for decades, has ridden on a wave of success.

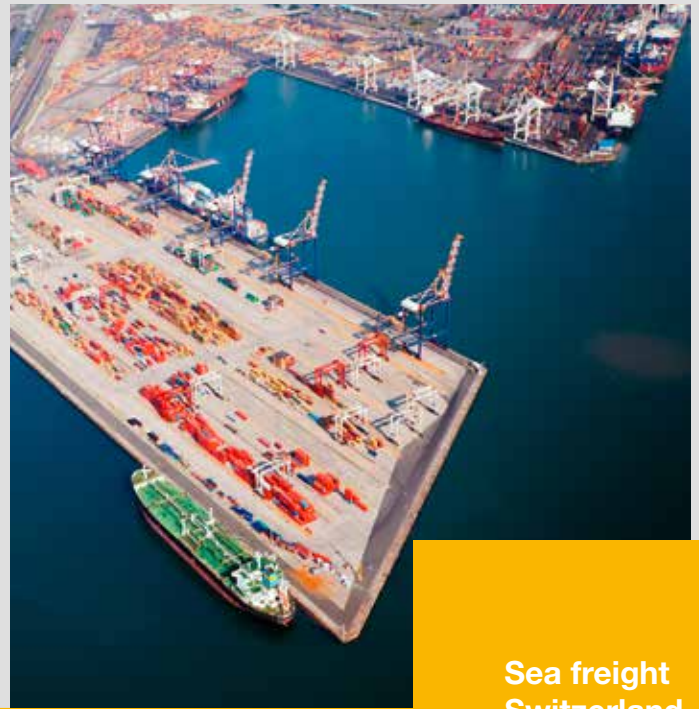

150 YEARS
1866 – 2016
Gondrand-Group

Personally worldwide.

By Air. By Sea. By Land.

As a worldwide leading forward and logistics provider, we ensure added value for our customers. We offer a comprehensive range of first class transport and logistics services including also sea freight. Your individual sea freight solution is determined by a few established principles: We take time to offer you personal recommendations, adapt to your specific requirements and provide a solution which not only largely fulfils your needs but does so right down to the smallest detail.

Sea freight
Switzerland

The perfect sea freight solution for you.

Our sea freight specialists compile the individual route sections to ensure that your shipment gets from port to port and door to door in the quickest way possible. We have our own affiliate in Asia – the Gondrand Go-Trans with nine branches – and maintain long term, proven partner associations in many countries around the world.

We are able to offer guaranteed freight space on various routes and, as the official representative of several big shipping companies, also offer further benefits in sea freight. Not only do we organise sea transport but also assume the secure loading and unloading of your goods, the necessary documentation and offer support with further services.

Regular less container and full container loads from and to Switzerland

- ▶ North and South America
- ▶ Near and Middle East
- ▶ Mediterranean
- ▶ India
- ▶ Africa
- ▶ Asia
- ▶ Australia and Oceania

Weekly direct routes to Basel terminal:

- ▶ Keelung import
- ▶ Hong Kong import
- ▶ Shenzhen import
- ▶ New York import
- ▶ Shanghai import
- Regular departures with reliable shipping companies
- No transshipment in port of entry
- Reduced insurance premiums (minimised theft risk)
- Ultra modern terminal
- Competitive prices at attractive lead times
- Optimum flow of information (Single point of contact)

Project forwarding. Solutions to fit any size.

We are able to securely forward small replacement parts abroad as well as large equipment. When it comes to projects which go beyond the scope of everyday requirements, we are the right partner. Whether transporting a huge turbine through Europe or relocating an entire factory to South America: select specialists assume the calculation and planning, choose the most effective transport mode and organise the reassembly up to turnkey handover.

Our logistics project management leaves all opportunities open to you. We can assume a part of your project or the complete project handling. We realise, for example, not only the transport of individual, oversized bulky goods but can also assume complex industrial projects, for example the relocation of entire production facilities.

Advantages at a glance:

- ▶ Less container load (LCL)
- ▶ Full container load (FCL)
- ▶ Temperature-controlled
- ▶ Special equipment
- ▶ Cross trade
- ▶ Project loading
- ▶ Removals
- ▶ EU clearance with fiscal representation
- ▶ Distribution Switzerland and Europe
- ▶ Warehouse

Our project forwarding services:

- ▶ Worldwide network of branches and partners
- ▶ Individual and personal advice
- ▶ Specialist expertise for all types of transport goods
- ▶ 24/7 service

Our product and services.

The Swiss-based Gondrand Group offers tailor-made logistics and transportation solutions worldwide, with a strong presence throughout Europe and in China and a dedicated global network of partners. Our strengths include logistics for the automotive, machinery, chemical and pharmaceutical industries as well as worldwide removals. We also focus on logistics for events and fairs, as well as international forwarding and customs processing. We continue to demonstrate the same dedication to serving all our customers, personally and worldwide, as we have since 1866.
